

Inter School Quiz

Inter School Quiz by Jasmine Pritchett

Recently Farmor's YEP pupils have taken part in a visit from Cleeve School, this day went really well and everyone enjoyed it. Both school had very good presentations and also gave very good questions and answers.

This day really helped both schools on their project and they found out a lot about how to help their school save more energy and money. "I really enjoyed the day it helped me to find out more about saving energy in our school and also gave me more skills on public speaking and gave me more confidence for future speaking."

Both school's found that they both have different school's and ways too save energy they found out all information on their school from the survey day, this happened all day with everyone from YEP project working around all areas in the school working out about the electrical equipment and lighting, plus heating and insulation.

Farmor's have also made many plans for the future using help from this day, so far there are plans are too help raise awareness for YEP around there school by setting up a school campaign and ideas to do more presentations to pupils and teachers around school. This so far has been going quite well as some of the pupil's have had meetings and talks with all Farmor's governors, this also when really well and many skills and facts were learnt from this.

Students from Farmor's and Cleeve schools taking part in the inter-school event at Farmor's
