

Pathfinder Programme

Community Action for Climate Change

"Pathfinder - supporting communities to take action on climate change"

Pathfinder is looking to support and enable the good work that communities are doing across Wales to adopt behaviours that lead to a low carbon lifestyle and living in a more sustainable way.

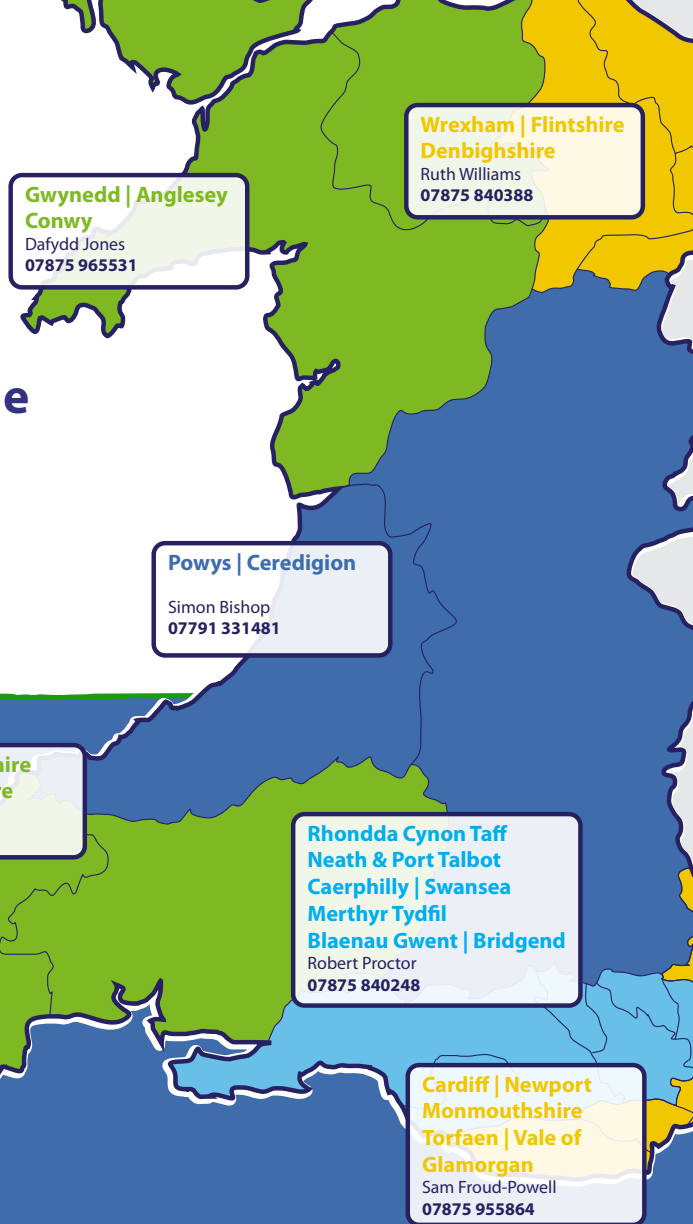

This could include a wide variety of activities such as car sharing, community grown food, rainwater harvesting or reducing energy use in your community.

We would love to hear from you if you:

- ✓ Are a community or voluntary organisation, big or small, involved with or thinking about activities to reduce your community's carbon footprint
- ✓ Have a story that could inspire others wishing to take action
- ✓ Are looking for help, advice or technical support
- ✓ Would like to be part of a Wales-wide research programme to explore what works when communities take action on climate change
- ✓ Would like to know more about Pathfinder.
