

## **Tewkesbury Borough Council Climate Change Strategy Community Workshop - 11 AM, 28<sup>th</sup> July**

Thank you for coming along to today's climate change strategy development workshop.

Tewkesbury Borough Council is developing a climate change strategy to address emissions of polluting gases from the borough and also local actions needed to adapt to a changing climate. To develop and implement the strategy it is essential for the Council to consult and work with other organisations and the wider community; today's event forms part of this process.

We hope you enjoy the event and are able to put your views across and also learn from the knowledge of other delegates.
