

sw economic resource (gwh/yr):

wave	14
tidal stream	9
biomass	984
advanced waste	2104
onshore wind	5192
total	8941

source: revision 2010

sub-regional economic resource:

gwh/yr	glos	wilts	former avon
biomass	77	104	61
advanced waste	285	270	428
wind	159	674	123

source: revision 2010

opportunities on the ground?

- forestry companies developing wood chp
- old mills redeveloping micro hydro
- solar in social housing
- mod developing wind
- energy users wind cluster

benefits:

- investment of £595 M to reach target
- 10-20 jobs per MW
- diversification
- Infrastructure renewal

© wavegen

the obstacles:

- competition
- finance
- policy
