

# SAVING ENERGY AND MONEY IN YOUR HOME

**Severn Wye Energy Agency** can help you make your home warmer and more comfortable whilst making significant long term savings on your fuel bills

**Severn Wye Energy Agency has a long track record of helping householders to turn their home into a low carbon, low cost building.**

By combining expert assessment of the property with an impartial, technology neutral approach Severn Wye can help you install the right measures for your property and back these up with

### Severn Wye offer...

- **Experienced technical experts who come out and visit your house**
- **A full National Home Energy Rating (NHER) domestic energy assessment of your property**
- **A comprehensive report outlining the most appropriate actions for your home including:**
  - Advice on meters and tariffs
  - No cost behavioural changes and energy reduction ideas
- Optimisation of existing heating systems and controls
- Advice on lighting and electrical appliances
- Improving insulation levels and air tightness
- Upgrading glazing
- Options for generating clean energy from renewable resources
- **An up to date Energy Performance Certificate (EPC) - required when you sell or rent out your home**

behaviour changes that will further reduce your bills.

We have provided detailed home surveys and tailored advice reports to 248 householders and worked closely with 102 of these as they made significant improvements to their properties including internal wall insulation, external wall insulation, sloping ceiling insulation, photovoltaics, solar thermal, ground source heat pumps and biomass boilers. Browse our comprehensive catalogue of

detailed case study examples including all construction types, ages and locations. [www.target2050.org.uk/casestudies](http://www.target2050.org.uk/casestudies)

We found the report from Severn Wye very useful, it was great to be able to talk in detail to someone who was unbiased and helped us decide what was best for our home.

*Ian & Catherine Butcher, 1970s timber frame house, Chalford, Stroud District*

### What are the benefits?

- Your home can be warmer, more comfortable and cheaper to run
- Improved self sufficiency and resilience to energy price hikes
- Reduced carbon footprint and environmental impact
- Opportunities for generation of clean energy and income from Feed-In Tariffs and Renewable Heat Incentive
- Confidence that the measures suggested are right for your property – not based on sales commission

### Costs & commitments

#### £300 + vat for full Domestic Energy Audit including:

- NHER assessment
- Energy Performance Certificate (worth approx £75)
- Detailed report and action plan
- ½ day follow up support and advice

In some areas this service is part subsidised by local authorities – please contact us to find out if this is available in your area.

Severn Wye Energy Agency also offer tailored sustainable energy advice and support to a wide range of clients including small businesses, community buildings, schools, local authorities, parish councils, community renewable energy schemes, landowners, farmers and churches.
